

CLAIMS

1. Pharmaceutical, cosmetic, dietetic or nutraceutical compositions comprising:

- 5 - visnadin or esculoside;
- at least one compound selected from icarin or derivatives thereof or extracts containing it, *Gingko biloba* dimeric flavones either in the free form or complexed with phospholipids, amentoflavone;
- 10 - at least one compound selected from escin, escin beta-sitosterol complexed with phospholipids, sericoside, sericoside complexed with phospholipids or *Centella asiatica* extract in the free form or complexed with phospholipids.

2. Compositions as claimed in claim 1, having the following concentration ranges by weight:

- 15 - Visnadin or esculoside: 0.05-2%;
- amentoflavone or *Gingko biloba* dimeric flavones in the free form or complexed with phospholipids: 0.1-1%;
- icarin or derivatives thereof or extracts containing it: 0.1-1%;
- 20 - Escin, escin beta-sitosterol complexed with phospholipids, sericoside, sericoside complexed with phospholipids or *Centella asiatica* extract in the free form or complexed with phospholipids: 0.5%-2%.

3. Compositions as claimed in claim 1 or 2, in which icarin derivatives comprise 7-hydroxyethyl-icarin, 7-ethylamino-icarin, 7-aminoethyl-icarin, 7-hydroxyethyl-3-O-rhamnosyl-icarin, 7-aminoethyl-3-rhamnosyl-icarin, 8-dihydro-icarin and its glucosides in 7 and 3, and 7-hydroxyethyl-7-desgluco-icarin.

25

4. Compositions as claimed in any one of claims 1-3, in the form of

CONFIRMATION COPY

creams, gel, lotions, milk.

5. A composition as claimed in claim 1, containing Visnadin.

6. A composition as claimed in claim 1, containing Visnadin, 7-hydroxyethyl-7-desgluco-icarin, amentoflavone and escin.

5 7. A composition as claimed in claim 1, containing esculoside, icarin, amentoflavone, escin.

8. A composition as claimed in claim 1 containing Visnadin, 7-hydroxyethyl-7-desgluco-icarin, *Gingko biloba* dimers in the free form or complexed with phospholipids.

10 9. A composition as claimed in claim 1 containing Visnadin, *Gingko biloba* dimers complexed with phospholipids, escin beta-sitosterol complexed with phospholipids.

10. A composition as claimed in claim 1 containing esculoside, *Gingko biloba* dimers complexed with phospholipids, escin beta-sitosterol complexed
15 with phospholipids.

11. The use of a combination of:

- visnadin or esculoside;
- at least one compound selected from icarin or derivatives thereof or extracts containing it, *Gingko biloba* dimeric flavones either in
20 the free form or complexed with phospholipids, amentoflavone;
- at least one compound selected from escin, escin beta-sitosterol complexed with phospholipids, sericoside, sericoside complexed with phospholipids or *Centella asiatica* extract in the free form or complexed with phospholipids.

25 For the preparation of a composition for the treatment of panniculopathy and of the problems connected with venous insufficiency of the lower limbs.
